

April 13, 2021

Dear Mr. Monroe:

Thank you for your time and preparation of Rule and Regulation No. 206 pertaining to LB461. As a Households good mover in the state of Nebraska and agent for Atlas van lines this bill has been of great interest to us.

We are encouraged by the parameters established in the Rule and Regulation No 206 for the PSC. This is very much in line with our consideration for what is needed as a foundation for providing Household goods moving services in the State of Nebraska. Our first and most pressing concern is the protection of our consumers, and the preservation of a history of high standards for the moving industry.

As part of this general line of thought we would recommend the following items to be considered.

-Page 7 Item 003.03A Cargo insurance to be not less than \$25,000 vs \$5,000

-Page 47 Item 13.09E2 Weight tickets. As a proponent of the need for Weight tickets when providing services for a shipper there is a category of moves that this is prohibitive to the service of the shipper. We would recommend that in situations where the shipment travels within the same municipality and/or does not exceed 20 miles from origin.

- Page 46 Item 013.09C3 Pertaining to inventories that as described above, we are a proponent of an accurate inventory process, all be it there is opportunity to waive this rule for situations where the shipment travels within the municipality and or does not exceed 20 miles from origin.

- Page 46 Item 13.09C5 Disclosure of limits of liability and valuation options. We would recommend that this information for the consumer is done in such a manner that is not ambiguous, is prevalent and to be acknowledged by the shipper prior to loading of any shipment.

Thank you again for the opportunity to provide our support and communication pertaining to the rules and regulations proposed. We are looking forward to being a part of the landscape for moving of Household Goods on Nebraska.

Sincerely,

Brent LeClair
General Manager

Monroe, John
